Promises and commits to a Life-long challenge to support all Breast cancer research, screening, treatments and cures until the number is “ZERO”. We will strive to eliminate and/or significantly reduce the severity of the "B" known to us all as "BREAST CANCER". Our dedication is to serve individuals from various walks of life, including diverse ethnic, social, economic, underserved and highly at-risk persons throughout Illinois.

Our Vision:
What If… Carolyn Y. Adams Breast Cancer Foundation (WICYABCF), Envisions that all individuals throughout the State of Illinois will have equal access to Early Detection Mammography and the best treatment and support possible for their diagnosis regardless of ethnic, social, intellectual or economic status. What If …Scholarship program will serve Lynn’s quest for equality in Education for the underserved to ease the emotional and financial burden, for our children who have lost a parent/mother or primary provider to Breast cancer.
